white paper and black ink?

Because he was not a qualified several men during the first quarthe photo-electric engraving into a working model. One of these

Twenty years earlier the first engineers working in anodther city photograph had been successfully called Howey excitedly to tell him reproduced in the New York that he had the answer. Before Graphic. Before this date, all il- Howey could get away from his newspaper, word came that the engineer had been found dead in into wood and metal blocks by his garage. His heart had stop-When he arrived, Howey couldn't find a trace of the machine and - worse - all papers had mysteriously disappeared Months of investigation revealed nothing and Howey started fro the beginning.

> By 1929 a photo-electric tube which would faithfully translate reflections from photographic copy was availagle. Also, by the time the radio tube had been developed into an efficient electrical valve and Howey heard that an ampliflier sensitive enough and powerful enough had been invented After some negotiations, he obtainde permission to use this yet unpatented ampliflier, and, a young engineer named John Hancock built the first photo-electric

Welcome

Some 2,500 Coast Electric members will throng into Bay St. Louis come Saturday for their annual meeting. These folks are bid wel-

This is an annual visit they pay Bay St. Louis, and it's a visit the town has grown to anticipate with relish. It's the closest we have to a county fair, and we hope we make new friends with each visit Coast Electric has done a fine job of bringing light into the darkness of the rural areas. May it enjoy continued success.

A Disgrace

Whatever you think of the county line juke joints, their death by the torch is a disgrace. It was wanton destruction of property. It was mob violence in its ugly and cowardly form.

If the investigators were crusaders, they might have had the courage of a Carrie Nation to do their work in the open and not jeopardize lives. But maybe the investigators were not crusadesr at all. May be they were rival bootleggers.

At any rate, this nation is built on due process of law. If that law doesn't function, the retaliatory weapon is the ballot, not the bullet.

Sudden Thought

Turkey Shoots Bay High School To Be Held **Approve Program Again Sunday**

Bay High students in American History and American Govern ment have indicated their approv al of the educational program outlined by the Recess Legislative Study Committee, Bay High reorted this week.

The students studied the plan Highway 09, Legion officials anported this week.

this week. Many of them felt nounced this week. that they would write to their Congressmen and Senators in order to aquaint them with their fellings on the spbject.

The study of the program has focused interest by the students themselves in improving the educational standards.

Yacht Auxiliary Plans Luncheon

The Bay-Waveland Yacht Club Auxiliary will hold its monthly luncheon and canasta game next Highway 90, near the Highway Wednesday at the Yacht Club. Mrs. Charles Lozano announced this week.

Hostesses for the affair this will be held at the Lakeshore Civic month will be Mrs. H. Ratenburg, Mrs. T. A. Schaeffer and Mrs. Hall Sunday at 2 p. m., it was an Charles Lozano. - The luncheon nounced this week. will be in a Thanksgiving day notif, olic Church of Laekshore, the par-The luncheon will begin at 12 ty will be held for a church bene-

Farmers Are Taking Life Easier New Type Feeder Appears on Market ed from Forcest Avenue to Rail-

principle never before used on farms. Engineers sall it reciprocating action. Chickens, for years, have been smoot the most "electrically pampered" of productive fowls.

Eatined in incubators, where electrically have the temperature and humidity just right—and even turns the eggs on schedule—little ohicks.

Engineers call it reciprocating action. Others might say that the feed alides or alips along the trough as bottom sections are driven backward and forward rapidly by an electric motor. Feed is dropped in the trough from a main storage hopper, with sunfliary hoppers supplying special rations, along the eggs on schedule—little ohicks

emerge into a world of infra-red by time clocks. The level of the feed brooders, automatic waterers and time is established by the birds themselves, clock-controlled lights. Their poultry houses may be cleaned and ventilated electrically, and they can be sent on their way to someone's Sunday din-ner by way of an electrocutor.

Lately, farmers, too, have been coming in for some of their flock's fun and frolic among the kilowatts. An increasing number of them have been letting electricity handle their poultry feeding problems. The end-less chain type of poultry feeder has been on the market for a couple of years and now a new type of auto-matic feeder has arrived. This latest type moves feed along a trough 3½ maintain egg production a inches wide and 2½ inches deep by a their marketable weight.

n that the amount they eat activates in that the amount they eat activates the supply dumped into the trough. In single trough systems, uneaten feed drops into a grill-covered parat the end of the trough. When a cupful or so has accumulated in the panthe feed supply mechanism stops until the excess has been consumed. In larger circular systems, the accumulation of uneaten feed supply required. lation of uneaten feed pushing against the main hopper gate shuts off the good for both farmers and flocks. They enable farmers to reduce labor and time costs, and provide birds with the right amount of feed required to

City Thinks Can Force L & N To Halt Trains

City officials indicated that they still have the Louisville and Nashville railiroad on the defensive in the passenger train dispute, despite a state supreme court decision against the city or Durant, Acting Mayor Cyril Glover said today.

Glover said he talked to the Mayor of Durant, R. E. McNeer this week and feels satisfied tha the city has a case against the

Durant had asked the Mississipr State Public Service Commissi to force the railroad there to hal it trains in Durant. The Publi

But the supreme court overrule that order. It said the railroad did not have to halt its trains in Du-

Glover pointed out, however that Durant is not a county seat The statute Bay St. Louis is de pending on says that passenger trains must halt in a county seat i the people in that town so desire Glover said he had been trying o talk to Mayor McNeer for several weeks and was able to do so

only recently. L & N earlier indicated it didn' hink the statute would apply. The L & N is seeking to keep its crack streamliner, The Humingoird, from stopping here.

Several months ago the city sent copy of a resolution to the L & N lemanding that it comply with the

Recently the railroad wrote back asking to "appear before you and acquaint you with the pertinent "We're always glad to be ac

uainted with the pertinent facts. Hover said, "but we still wan hem to stop the trains." No dates have been set for the meeting, Glover said, because of the illness of Mayor John Scafide.

Stennis To Talk To Mississippi College For Women

A report on U. States and world fafairs will be made to students of Mississippi State College for Women by U. S. Senator John C. Stennis at the collegces assem-

ly Nov. 17. The Senator's speech is one c series being given at the col lege this year in the field of re-

sponsible citizenship.
Senator Stennis recently returned from an official inspection of military bases in Europe as member of the Military Constructio Subcommittee of the Senat Armed Srvices Committee. By ap pointment of the Vice Presider nee also represented the Senat as a guest of the German gov ernment for the opening of Germany's parliament early in Oc.

Civil Service Offers Jobs
